

**ALAMEDA COUNTY MEDICAL CENTER  
HIGHLAND CAMPUS  
New Critical Care and Clinics Building**

***MAIN SPACE COMPONENT BY FLOOR***

**3rd Floor - Imaging, Pharmacy, Lab and Patient Ancillary Services**

*The third floor provides all ancillary services needed by our outpatients in one efficient, patient friendly location, easily accessible to both the primary and specialty care clinics.*

**· Imaging**

- 2 Mammogram Rooms, Patient and staff support areas
- 3 Ultrasound Rooms, patient and staff support areas
- 1 Radiographic room, 1 chest room, patient and staff support areas

**· Pharmacy**

- Outpatient and inpatient shelving, storage area, and IV preparation
- Prescription intake, dispensing, and patient consultation area

**· Phlebotomy lab Station**

- Mechanical and Electrical rooms as required

**4th Floor - Emergency Department**

*The fourth floor provides a complete replacement for our Emergency Department and Trauma Center. The replacement doubles available exam beds and square footage of our present Emergency Room, which is housed in space that must be vacated due to seismic standards by the year 2008.*

**· Total of 44 Exam Beds (double the present 22 bed department):**

- 6 Resuscitation spaces
- 7 Critical care beds
- 6 Observation spaces
- 3 Orthopedic beds
- 10 sub-acute beds

- 1 ENT Room
- 4 Isolation rooms, including 1 waiting/exam room
- 2 Seclusion rooms
- 1 Pediatric room plus play area
- 3 OB/Gyn rooms
- 1 Sexual Assault room
- 2 Radiology rooms
- CT Scan and Control Room

### **5th Floor - Outpatient Surgery**

*The fifth floor provides a replacement for current outmoded Outpatient Surgery and Trauma Surgery areas. A dedicated space for outpatient surgery will increase efficiency and patient access by assuring that outpatients are no longer bumped from the schedule by inpatient cases.*

- **4 Operating rooms**
- **1 Trauma Room**
- **1 Future O.R. Space**
- **2 Endoscopy Rooms**
- **1 Minor O.R.**
- **Patient pre-operation area ( 8 positions)**
- **Patient post-operation area (12 positions)**
- **10 chairs (2nd stage recovery)**
- **Support areas, such as lab and film processing**
- **Surgical sterilization facilities**
- **Patient waiting and consultation areas**

### **6th Floor - Primary Care Clinics**

*The sixth floor provides modern efficient space for all primary care functions. It replaces our primary care clinics which are currently housed in 1920's buildings with outmoded layout. Allows for optimal coordination of care across multidisciplinary lines. Floor features dedicated Women's and Children's Services as well as Adult Primary Care.*

- **A total of approximately 60 exam rooms**
- **OB/GYN and Women's Urgent Care:**
  - 18 exam rooms, including 1 Start Prenatal Care
  - 2 Procedure rooms
  - 4 Patient holding rooms
  - Non-Stress testing with 3 positions

- Triage/intake area
- **General Medicine Clinic**
  - 20 exam rooms
  - 2 procedure rooms
- **Pediatric Clinic**
  - 8 exam rooms
  - Hearing booth
  - Triage area
  - Separate waiting for well and sick children with play area
- **All the above clinics also provide spaces for Patient education, staff areas, administrative support and staff education.**

### **7th Floor- Specialty Clinics**

*The seventh floor provides modern and efficient clinic space in a patient-friendly layout for the Medical and Surgical Specialty Clinics. These clinics are now primarily located in the 1950's Clinic Building which must be vacated by the year 2008. Exam rooms and dedicated procedure/support areas are all located for ease of patient access to care.*

- **A total of approximately 83 positions plus 1 X-ray room, 1 Cysto room, and 1 Stereotactic Room**
- **Medical module:** 20 exam rooms
- **Surgical module:** 24 exam rooms
- **Also included are one of a kind space for unique functions,** such as Cast Room (4 positions), x-ray room, and film processing
- **Urology:** Cysto room and lab
- **Podiatry:** 4 exam and 1 special procedure room
- **Hematology/Oncology:** 2 dedicated exam rooms (additional exam rooms shared with Medical Module) and Infusion Suite (4 positions)

**Additionally, there are dedicated areas for clinics with unique requirements, such as:**

- **ENT/Ophthalmology:** 7 exam rooms, 1 Visual field, 1 Laser Room, and 1 Special procedure
- **Adult Immunology Clinic (HIV Services);** 6 exam rooms and Infusion Suite (3 positions)
- **Breast Center:** 1 Stereotactic Room
